## Overview

**Dealers** – Ever wish you could just let a customer that is already fluent with Composer HE also have the power to rename devices? Hate getting the calls to rename Living Room Light to Ceiling light or customers that want everything to be plural? or change TV to television. Here is your answer!

**Customers** – You ever wish you didn't have to call your dealer for every little thing? Already flunt with Composer HE and just want to have a little more power?

Here is the answer to both parties wishes – a driver to allow Composer HE to be able to rename devices.

## Features

- Rename devices via programming
- Refresh navigators via programming
- Rename devices in Composer HE

- Additional Proxy support

07/10/17 – 1.0.7

- Additional Proxy support

## Driver Installation

1. Add driver to Library\Documents\Control4\Drivers directory

## Adding the driver to your project

1. Launch the Composer Pro application and connect to your project
2. In the 'System Design' page select the 'Search' tab on the right hand side.
3. Select 'Other as the device type renamer.
4. Double click on 'Device Renamer' to add to the renamer driver

5. In the driver properties select the correct selling store and enter the correct license key.

<b>Store</b>	<b>Blackwire Designs</b>
<b>License Key</b>	<b>JhlOGDf6j0</b>
<b>License Status</b>	<b>Trial License Verified [47 hours left]</b>

- a. Note: if you are using HouseLogix enter “trial” as your license key to start a trial
  - b. If you are using Blackwire, please contact them for a trial key which will be valid for 1 week.
6. Select a single device you would like to rename in the Device Selector and click set
7. Type in the new name for the device and click set
8. Project Tree will flash as device renames
9. Rename all devices you would like, then select file ⇒ Refresh Navigators to ensure your navigators are updated

## FAQ

Q: If I try to use the programmatic device rename the device try loads blank

A: We are aware of this and have a fix in the works.

Q: My device doesn't show up in the device selector tree. What do I do?

A: If one of your devices is missing in the device selector we need a little information to add it to the driver. As shown in the screenshot below hover over the device and open a support ticket to have the driver updated.
